2.3.2 Teachers use ICT – enabled tools including online resources for effective teaching and learning processes.

Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences. Teaching–learning methods adopted by the faculty members include Lecture Method, Interactive Method, Project-based Learning, Computer-assisted Learning, Experiential Learning etc. The Teaching–learning activities are made effective through illustration and special lectures. Lessons are taught through Power point presentations to make learning interesting besides oral presenting methods.

Lecture method: This conventional method is commonly adopted by all the teachers. This method facilitates the teacher to interpret, explain and revise the content of a text only for better understanding of the subject by the learners.

Interactive method: The faculty members make learning interactive with students by motivating student participation in group discussion and questions and answers etc..

ICT Enabled Teaching: ICT enabled teaching includes Wi-Fi enabled class rooms with LCD, Smart Class rooms, E-learning resources. The institution adopts modern pedagogy in line with emerging trends to enhance teaching-learning process. Online reference, lecture talks, motivational talks, educational videos and web reference support the teaching-learning process. The institution has installed Wi-Fi on the campus to support the educational activities of the inmates.

Recently developed ICT (Information and Communication Technology) tools enable more effective information sharing, which has revolutionized how people learn and interact. ICT has become an essential tool for providing students with a complete education at all times, helping them develop their digital skills and improving the teaching-learning process with innovative methods.

Online classes were encouraged during the pandemic because it was hard to attend class and work. Then, ICT resources became more important in education. To keep the student's academic standards high and to retain some kind of normalcy among all this commotion, the ability to continue working remotely has been crucial. These tools' speed has allowed people to keep up their current pace of work while still conducting virtual lessons, uploading materials to various educational platforms, and even completing quiz-based exams at home.

The department uses ICT tools to create and deliver content, share content, facilitate communication between students, teachers, and the outside world, create and deliver presentations and lectures, conduct academic research, provide administrative support, enroll students, etc.

It prioritizes ICT integration in education. In the 21st century, ICTs provide innovative and transformative development models that increase teacher learning wherever it occurs. Department uses online resources and ICT-enabled tools like interactive panels to improve teaching and learning. ICT-enabled classrooms with projectors, Wi-Fi, and teacher created Power Point presentations give pupils cutting-edge information and practical learning.

Wi-Fi campus access let students complete research and project work from home. Every classroom has a projector/interactive panel for new pedagogies.

2.3.2: Teachers uses ICT enabled tools including online resources for effective Teaching and learning process

2.3.2. Teachers use ICT enabled tools including online resources for effective teaching and learning processes

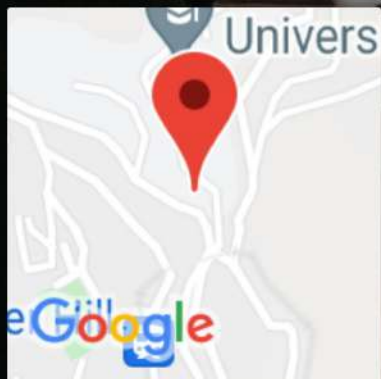

In the present era, it is essential for the students to learn and master the latest technologies in order to be corporate ready. As a consequence, teachers are combining technology with traditional mode of instruction to engage students in long term learning. The Department uses Information and Communication Technology (ICT) in education to support, enhance, and optimize the delivery of education. The following tools have been used by the Department.

ICT Tools:

- Projectors- 04 projectors are available in different classrooms/labs.
- Desktop and Laptops- Arranged at Computer Lab and Faculty cabins all over the campus.
- Printers - are installed at Chairman Cabins and all prominent places.
- Photocopier machines - Multifunction printers are available at Chairman's room. There is 01 photostat machine available in the Department.
- Scanners - Multifunction printers are available at all prominent places.
- Seminar Room is also equipped with all digital facilities.
- Online Classes through Zoom, Google Meet, Microsoft Team, Google Classroom).

Use of ICT by Faculty

- Power Point presentations: Faculties are encouraged to use power-point presentations in their teaching by using LCD's and projectors.
- Seminar room is digitally equipped where guest lectures, expert talks and various competitions are regularly organized for students.
- Video Conferencing- Students are counselled with the help of Zoom/Google meet applications.
- Workshops- Teachers use various ICT tools for conducting workshops.

Chandigarh
Defence Studies, HPU Shimla with NSS open unit, Chandigarh organises Webinar on Kargil Vijay Diwas
Yadavindra S Rana | July 26, 2021 05:01 PM

COMMEMORATED KARGIL VIJAY DIWAS, 2021

NSS Open Unit, UT Chandigarh with Defence & Strategic Studies HP University, Shimla

CHANDIGARH: Department of Defence and Strategic Studies, Himachal Pradesh University (HPU), Shimla in collaboration with NSS Open Unit, Chandigarh commemorated Kargil Vijay Diwas in a virtual mode. The occasion was graced by Prof. Bikram Rana (Former OSD-Education), Prof. Harish K. Thakur (Chairman, Defence Studies, HPU, Shimla), Col. Ravi Raina (Serving Officer, Indian Army) and Dr. Chandan Awasthi (Deputy Director, IDC India). In a keynote address, Prof. Rana highlighted the importance of 22-years of Vijay Diwas by enlightening the sacrifices of Indian armed forces during the whole operation.

Being from Himachal, he shared the inspiring story of 25-year old Capt. Vikram Batra (Yeh Dil mange more) and Maj. Saurab Kalia with a reference how their invaluable sacrifices going to motivate the generations for decades and coming centuries. He further shared his personal association and experience of Capt. Batra being associated to NSS/NCC in early 1990's.

Another panelist, Col. Ravi Raina being connected to on ground situation with Indian Army stressed to promote the strategic culture among common citizen for better understand of ongoing proxy wars. Narrating the ongoing geopolitical turbulence in South Asia, Col. Raina highlighted the growing demand and need of hour for Defence and Strategic Studies subject in India among all College and Universities as a compulsory subject. He further shared, how unknowingly the present generation is least aware about the ongoing drug trafficking and people are getting into trap of money laundering with shell companies.

Taking forward the session, Dr. Chandan Awasthi with research expertise highlighted the career prospects for students and growing demand of Defence analysts in think tanks and research institutions. He further added that IDC India from next year going to introduce PhD. Programme in Defence and Strategic Studies. Webinar was followed by Q&A session.

Prof. Harish Thakur congratulated the organisers and faculty members for this fruitful association in raising the awareness of national importance for community. In the end panelists thanked NSS Programme Officer, Er. Binesh Bhatia and NSS Open Unit for hosting this webinar of prime importance with a hope to continue the good work alive in National interest.

Teachers use ICT enabled tools for effective teaching-learning process.

UIT follows ICT enabled teaching in addition to the traditional classroom education. All the classrooms and labs are ICT enabled with projectors installed and the campus is enabled with high speed wifi connection. Due to lockdown, teaching was fully conducted in an online mode. The faculty used various ICT enabled tools to enhance the quality of teaching-learning like:

- The faculty members used Google meet or Zoom to conduct tests and for lecture delivery. Also used many interactive methods for effective teaching such as PPT with animations, Video clippings, Use of online resources from NPTEL, Coursera, youtube links, Simulation tools, Virtual labs , online assessment tools like mentimeter - Quizz.com, and various Cloud portals etc.
- WhatsApp group used as platforms to communicate, make announcements, address queries, and share information.
- To teach problem solving subjects in an online mode, faculty have used various online tools like- whiteboard in Microsoft teams, Jamboard in Google meet, etc. Also used Pentab for live solving problems.
- All teaching materials and instructional material for conducting Experiments are uploaded by faculty members in advance on Moodle. Online tests are conducted and e-assignments are given through Moodle.
- Other important activities such as Project presentation, Debates, Group discussions, Mentoring, PTA meet, AAC meet also conducted online through Google meet or Zoom platforms for quality teaching learning process.
- The research journals and ebooks are available on online library to our faculty and students.
- All the departments conduct webinars, workshops and guest lectures on the new developments in the core subjects for effective teaching and learning by Industry experts and Alumni on Zoom platforms and also broadcasted the same on Youtube.
