1. Introduction

This document is referred to students of HP University. The student portal allows registered students to check their exam scores, view their profile, exam form filling, fee payment and download their admit card, and more.

To login the student Portal, students have to visit the HP University official site <https://nstudentportal.hpushimla.in/>

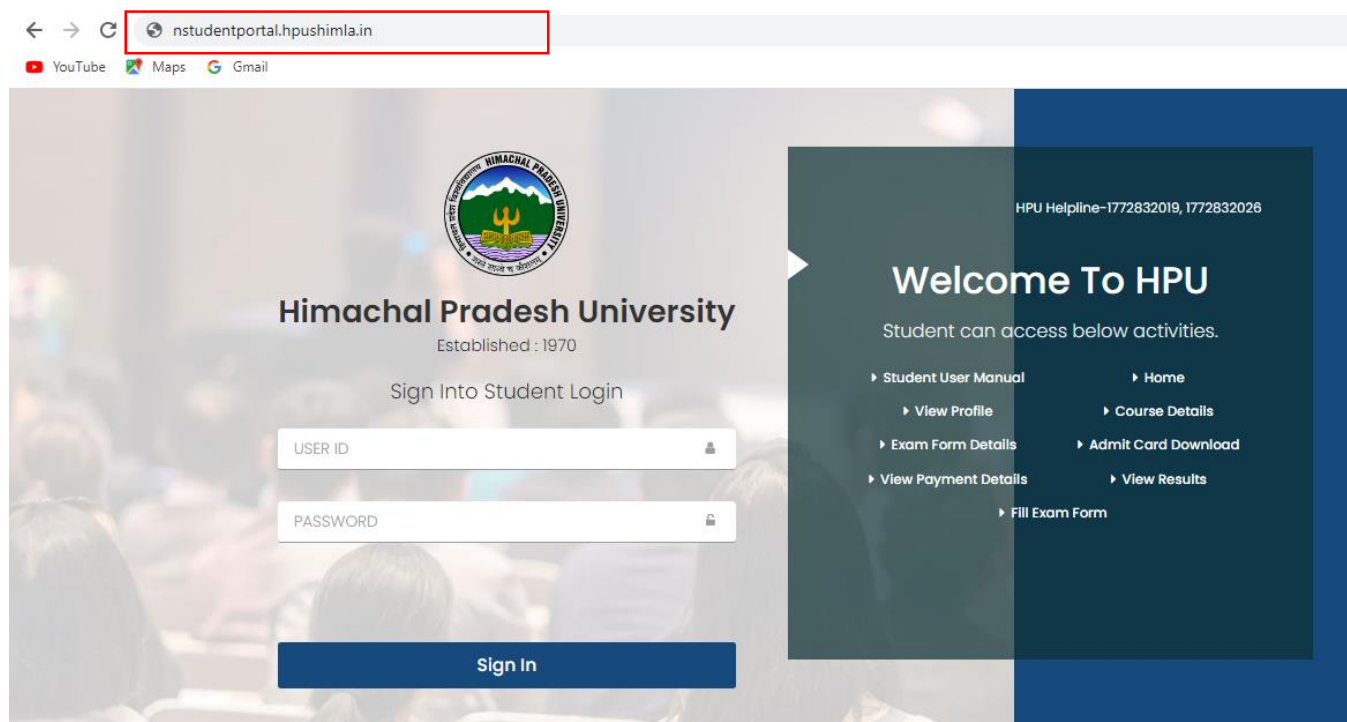

The screenshot shows the web browser interface for the Himachal Pradesh University Student Portal. The address bar displays nstudentportal.hpushimla.in. The page features the university's logo and name, "Himachal Pradesh University", with the text "Established : 1970". Below this is a "Sign Into Student Login" section with input fields for "USER ID" and "PASSWORD", and a "Sign In" button. A note at the bottom states: "In case of forgot password, contact your college." On the right side, a dark blue sidebar contains the text "HPU Helpline-1772832019, 1772832026" and a "Welcome To HPU" message. Below the welcome message, it says "Student can access below activities." and lists several options: "Student User Manual", "Home", "View Profile", "Course Details", "Exam Form Details", "Admit Card Download", "View Payment Details", "View Results", and "Fill Exam Form".

2. Student Portal

2.1 Login

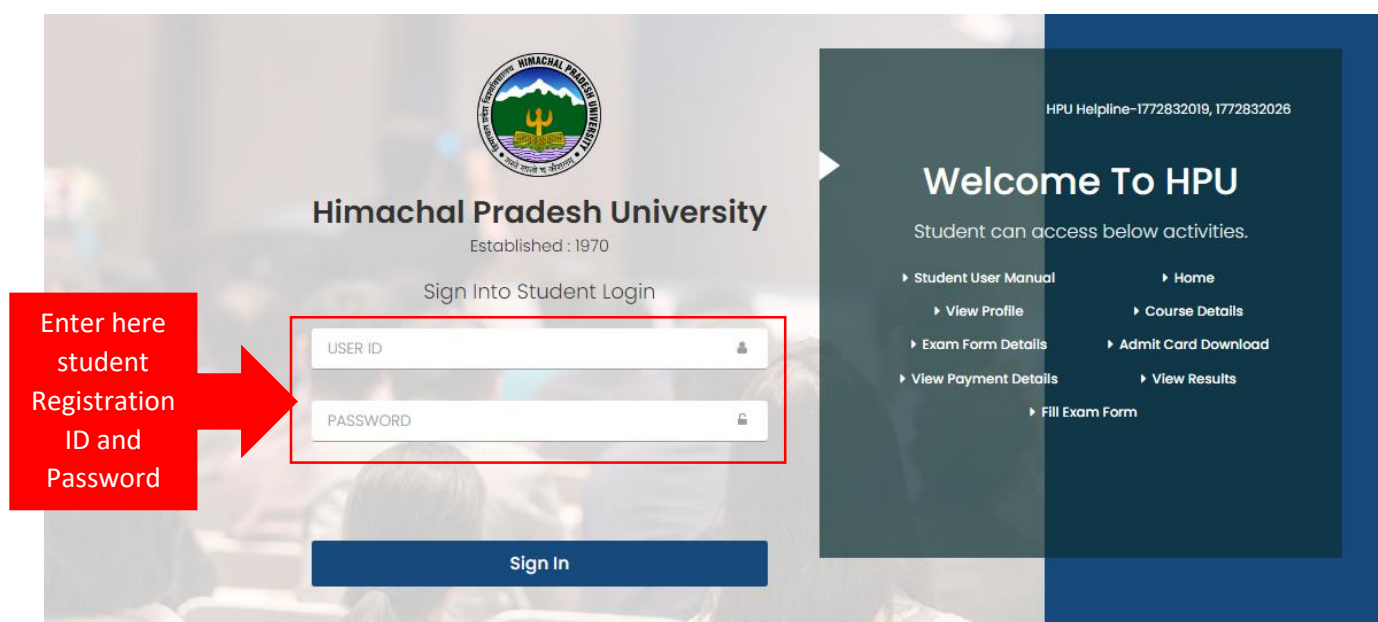

Open the URL on the web page,

URL: - <https://nstudentportal.hpshimla.in/>

The screenshot shows the login page of the Himachal Pradesh University Student Portal. The browser's address bar displays the URL <https://nstudentportal.hpshimla.in/>. The page features the university's logo and name, "Himachal Pradesh University", established in 1970. Below this, it says "Sign Into Student Login". There are two input fields: "USER ID" and "PASSWORD", each with a small icon to its right. A blue "Sign In" button is positioned below the password field. On the right side, a dark blue sidebar contains the text "Welcome To HPU" and "Student can access below activities." followed by a list of links: "Student User Manual", "View Profile", "Exam Form Details", "View Payment Details", "Fill Exam Form", "Home", "Course Details", "Admit Card Download", and "View Results". The HPU Helpline number 1772832019, 1772832026 is also displayed at the top of the sidebar.

Enter student user-id and password.

This screenshot is identical to the one above, but with a red arrow pointing from a red box on the left to the "USER ID" and "PASSWORD" input fields. The red box contains the text "Enter here student Registration ID and Password". The rest of the page, including the university logo, "Sign In" button, and the right sidebar with the "Welcome To HPU" message and list of activities, remains the same.

BAR CODE PRINTING AND PASTING

Bar code is designed in such a way that secrecy can be maintained.

Each bar code is unique i.e. Factitious Roll Number (FR) is created in accordance with the university Roll number allotted to the student.

Barcode is printed with the help of specialized hardware and software.

Bar code is matched with the Answer script Roll number before pasting.

Printing of Barcode

<https://oses.hpushimla.in> is accessed, **Logged In** with the provided credentials, the packet number is entered in the barcode generation tab. All the Roll numbers that are saved against that packet Number appear along with its packet number and other details.

After checking details then barcode are printed

Bar code matching

once the barcode have been printed against a packet number then barcode has to be arranged according to the memo

Then barcode have to be matched with the sheet roll number

Pasting of Barcode

Once barcode is matched with the sheet then it has to be pasted on the Answersheet to which it match at the correct place

CUTTING THE ANSWER SCRIPTS

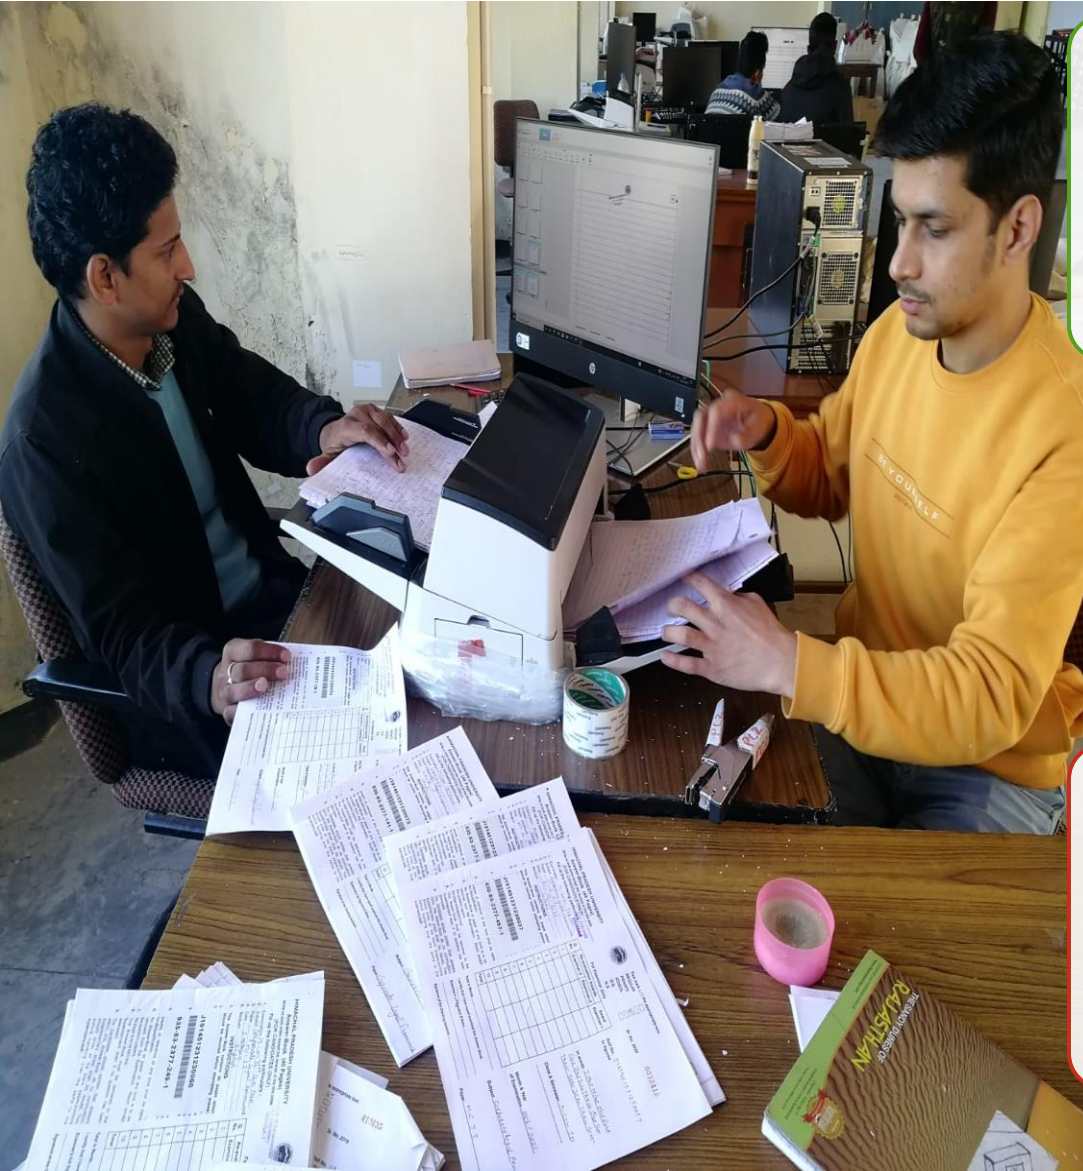

With due care the Answer Script is cut from the thread side

Maximum of 10 scripts are cut in one lot

Specialized manual cutter is used for this purpose

SCANNING OF SHEETS

- Bar code that is pasted on the first page

Each Answer Script is being converted into a separate file by the scanning software on the basis of

Image Quality/
DPI

- 200

Scanning per hour of Answer Scripts

Scanned Sheet is converted into image of Format

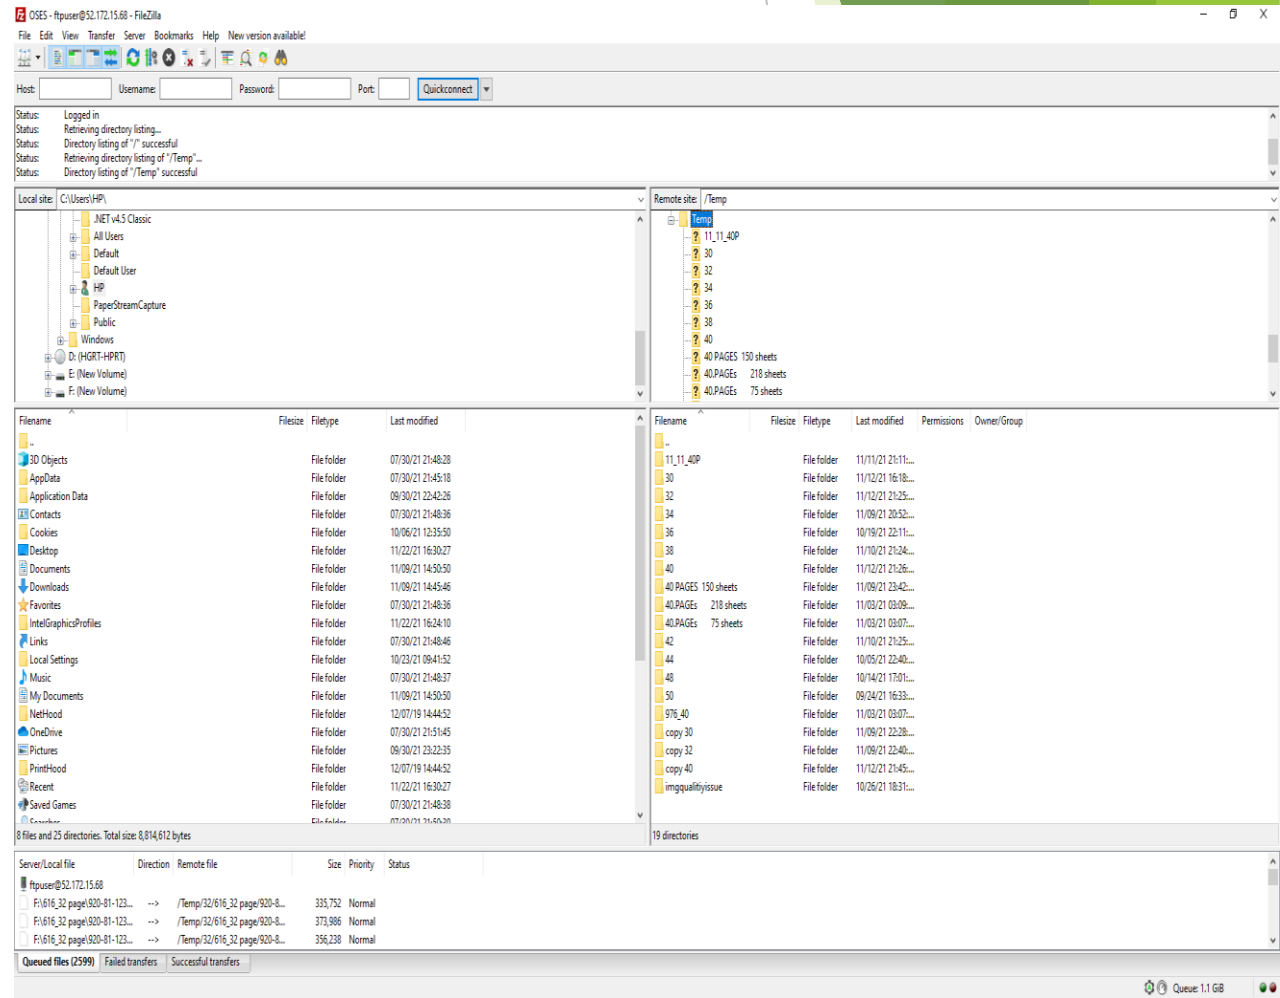

- 50 To - 60

- JPEG

Once a packet is scanned, is put to compressing with the help of the software **Caecium** which decrease the size of the file to 1/3rd

After compressing the packet is uploaded with the help of software -Win-
Uploader and Filezilla

 **Caesium - Image Compressor**
